

HyR BRIX® Fruit & Berry Fertilizer can help improve yield, nutritional value and taste. It enhances the longevity of your perennial plants and contains nutrients that aid in longer fruit storage attributes. Great for all types of fruit!

How to Apply: Established Plants: Apply 3/4 cup in a two foot radius around the plant, at least 2-4 inches away from the plant, work into soil or broadcast over top of established plants, ensuring fertilizer does not set on foliage. Best applied late fall (**AFTER DORMANCY**) to enhance spring budding. Note: If applied on established plants every fall, does not need to be reapplied in the spring. **New Plants:** Prior to planting, broadcast evenly based on Application Chart, work into soil. **Row Planting:** Prior to planting, apply 10 lbs. per 100 foot row or 1 cup per 5 feet, in a foot wide band, work into soil. **New Perennial Plants:** Apply prior to planting as directed above and then apply again in the late fall. Every year thereafter, simply apply once after dormancy. **Tree Application:** Apply 1 cup for every inch in diameter of the tree trunk. Spread in the width of the branches of the tree canopy.

Caution: Do not place in planting hole, on seed, on roots, directly against the stem of the plant, or directly to foliage. Always work into soil. Do not use for indoor seed starter. MUST USE AS DIRECTED.

Application Chart			
Area Size	Fertilizer Amount	Area Size	Fertilizer Amount
50 sq.ft.	2 lbs.	500 sq.ft.	20 lbs.
125 sq.ft.	5 lbs.	1000 sq. ft.	40 lbs.
250 sq.ft.	10 lbs.	1250 sq. ft.	50 lbs.
375 sq.ft.	15 lbs.	1 acre	1000 lbs.

If planting in containers that drain water out the bottom, multiple applications may be necessary.

HyR BRIX®
Serious Fertilizer
The only fertilizer you will ever need...
... the best you will ever use.

JUST ONE APPLICATION!
Feeds plants ALL SEASON!

The difference is **RESULTS!**
Look what others are saying:

“For the past three years, I was never able to get viable berries from my strawberry plants. I put the Fruit & Berry fertilizer on in the fall, and by mid-May I finally had my first strawberry crop!” - Angela G.

“HyR BRIX® Fertilizer did a great job. Our fruit trees were loaded with nice fruit and a good flavor.” - Dan Y.
