

HyR BRIX® Tomato Fertilizer is a unique blend of essential micro-nutrients that tomatoes need for a healthy growth cycle. With multiple sources of calcium and a balance of nutrients, it helps prevent disease and blossom end rot, as well as helps maximize production and enhances taste.

How to Apply: Best if applied prior to planting for season long fertilization, but can be applied anytime. Broadcast evenly based on Application Chart below, work into soil or for:

- **Individual Plants:** Apply 3/4 cup in a 2 foot radius around the plant, at least 2-4 inches away from the stem, work into soil.
- **Row Planting:** Apply 10 lbs. per 100 foot row or one cup per 5 feet, in a foot wide band, work into soil. Can be reapplied anytime during the growing season if plant shows signs of stress.

Caution: Do not place in planting hole, on seed, on roots, directly against the stem of the plant, or directly to foliage. Always work into soil. Do not use for indoor seed starter. MUST USE AS DIRECTED.

Application Chart			
Area Size	Fertilizer Amount	Area Size	Fertilizer Amount
50 sq.ft.	2 lbs.	500 sq.ft.	20 lbs.
125 sq.ft.	5 lbs.	1000 sq. ft.	40 lbs.
250 sq.ft.	10 lbs.	1250 sq. ft.	50 lbs.
375 sq.ft.	15 lbs.	1 acre	1000 lbs.

If planting in containers that drain water out the bottom, multiple applications may be necessary.

PLANT GROW HARVEST

Proudly made in the U.S.A.

20 lb. Tomato
**NOT FOR RESALE
OR REPACKAGING**

Store in a cool, dry location.
Staining Note: Brush granules from concrete surfaces to prevent staining.
