

CONTAINS SPINOSAD, THE ACTIVE INGREDIENT USED IN CONSERVE® SC TURF AND ORNAMENTAL

STOP LEPIDOPTEROUS INSECTS QUICKLY AND EFFECTIVELY

EPA REG. NUMBER

91234-281

ACTIVE INGREDIENT

Spinosad 11.6%

FORMULATION

Suspension Concentrate

IRAC NUMBER

5

SIGNAL WORD

N/A

PACKAGE SIZE

12 x 1 qt

RESTRICTED USE

No

Contraxio™ SC, containing the active ingredient spinosad, is a key management tool for thrips and lepidopterous insects. Contraxio stops insect damage quickly, controls pests in one to three days, and gives up to two weeks of control from a single application. It is gentle on beneficial and naturally occurring predators, making it an ideal IPM partner.

PRODUCT INFO

- Stops damage within minutes through contact and ingestion activity
- Safe to use on sensitive ornamentals
- Low impact on beneficial insects
