

Touchscreen Timer Controller

TimeBoss

BARTLETT

— INSTRUMENT COMPANY —

An easy-to-use interface for lights & irrigation bundled in a modern controller!

Ten output timer controller to automate your timed activities like lights or irrigation. The new TimeBoss takes **automation** to the next level. Once you use our easy and intuitive **touchscreen interface** to program it, and with our **10 timers** available to control, you'll find yourself doing less busy work than ever before! Not only that, but with its Wi-Fi connectivity accompanied by our Headgrower App, you'll be able to access and **modify** your timers from your **smartphone**, where ever you are.

- Touch screen technology with color graphics display
- Up to 10 timer outputs for lights or irrigation
- Two run times per day per timer
- Easy & intuitive programming
- Wi-Fi enabled for firmware updates and remote access with Headgrower*

*Headgrower integration coming late 2019
