FREAKS

WONDERS OF THE PLANT

WORLD

Inside This Book Wondrous Wonderful Plants of all Curiosities!

WELCOME FRIENDS

All of us at Plantpeddler wish to extend a sincere thank-you for trusting us to provide you with live plant products. It is our honor and goal to grow with you in mutual success. The world around us is evolving, and the challenges to our businesses never more complex, but together we bring beauty to the lives we impact. It is always important to reflect upon what we do to make the world a more colorful place. We deliver with the power of flowers.

Reflecting on the good things this past year, the single biggest one might be the Covid pandemic appears to have crested and life has become a "new normal." As our masks drop, again we see each other's faces and gather with friends and family, as our industry continues to see rising demand with newly engaged gardeners. For this, we all must count our blessings.

Also, on the good side it was a big year for John and Molly Gooder who, in July of 2021, welcomed their second daughter, Mara. At four and counting, Rachel and I are building swing sets, buying toys, and stocking sugary treats. The joy of grandparenting is not overrated. To make John's year even bigger, he is also receiving the 40 Under 40 Award at Cultivate '22, which reflects on his second-generation leadership and impact on our continued growth and success.

Meanwhile back at the greenhouse, we navigated obstacles throughout the seasons created by disruption of global and domestic logistics, harvest labor at the Central American stock farms, supply chain challenges, bizarre weather events, and dreaded plant diseases. I am proud of how the team at Plantpeddler rose up. We have concerns as the industry must capture the costs of rising energy, inputs, and labor. As a huge advocate for the economics side of the greenhouse business, now more than ever, be sure to calculate your costs. With double-digit inflation, it is critical to raise your prices or risk going backwards.

While on the challenges of 2022, I would be amiss not to cover the subject of disease. This past season presented a renewed challenge from an old bacterial nemesis, *Xanthomonas* in Geraniums, and the rise of a new novel virus, CPMMoV (Chili Pepper Mild Mottle Virus) in Calibrachoa. These diseases occurred in two of the biggest crops in our industry, from top breeders. It is proof that the invisible nature of highly volatile diseases requires every producer to follow disease management protocols. Frankly, since the days of *Ralstonia* in the early 2000s, some hard lessons learned may have been forgotten. Responsibility of the "clean chain" goes beyond the breeder, farm, and rooting station. Diligence by everyone in this chain of production is required to maintain clean plants. If you need help developing a plan, please do not hesitate to reach out.

As we navigate into 2023, we welcome you to our most extensive, complete, and concise collection to date. We have added over one hundred new varieties from the top breeding programs in the world. This catalog is a powerhouse of genetic opportunity with no mandatory tag or container requirements. We thank-you for your business and trust in our company. It is our focus and goal to deliver to you the elite genetics in the highest quality young plants, in all seasons. As our recent ads reflect, "Quality Rooted Liners Equal Grower Success."

We Are Plantpeddler Video

About The Cover Artist—

Who knew sign-painting was a career? Mike Meyer did.

If traveling to Plantpeddler from north on Highway 63, you cross the Iowa border into the village of Chester. In November of 2020, Mike, and wife Ayleen, made their way south from Mazeppa, Minnesota, crossed that border, purchased a church, and setup their new sign shop/classroom/home. That's where we found Mike, asked him to create this year's cover, and so the story begins.

Meyer's interest in sign-painting goes back to his childhood in Mazeppa where his dad was a barber. "In between haircuts, my dad would paint signs. He gave me an early education in business, and soon I was the one painting the signs. That education proved to be a big thing in my life." Another mentor was Don Springer, who, when he died, gifted his brushes to Meyer: "When I was young, I built model cars. Then I saw the way Don painted race cars, I started doing that, too."

To continue his craft, throughout the United States, Europe, and beyond, Mike conducts workshops to teach classic hand sign painting. To further foster the art, he has published a book of alphabets from around the world, "Sign Painting — A Practical Guide to Tools, Materials and Techniques" by Mike Meyer & Friends, Better Letters.

If Mike wasn't an accomplished artist, he could have easily found his way onto the stage as a comedian. From commissioning through creation, his jokes and commentary kept us laughing and anxious in anticipation of the finished art. You can see the amazing talent and humor of this living legend in sign painting. If you are looking for unique custom signage and art for your business, please contact Mike at (507) 421-3940, mikemeyerchester@gmail.com, or stop by his church at 408 Main St, Chester, IA 52134.

(BTW: The little guy in the art, is a young Mike Gooder eating his boutonniere while being a Ring Bearer at said Chester Church.)

PLANTPEDDLER

Variety Day 2022

“Testing the Best in the Midwest”

Friday, August 5, 2022

9:00 am to 4:00 pm

You are invited! Mark your calendar and make plans to attend Variety Day 2022. The event keeps getting bigger and better, with a full day planned for horticulture professionals in production, distribution, wholesale, and retail. Come together with the industry to learn and connect.

- Complimentary day of genetics, breeders, seminars, tours, food, and networking.
- Expanded gardens with nearly 1500 varieties of vegetative annuals from a global array of breeders.
- Outstanding educational presentations and idea exchange.
- Great place to take photos and gather info for your social media marketing.
- This is a day for you to grow your business.

Make plans to attend. For travel guide and event information, contact us on the web at www.plantpeddler.com, email info@plantpeddler.com or call (800) 827-1654. To ensure we are ready for you, please RSVP. If arriving the night before, please join us for “The Feast at the Farm” special event that evening.

Follow-Up Events: Poinsettia Variety Day 2022 is Thursday, December 1. Variety Day 2023 is Friday, August 4. Please make plans to attend.

We are looking forward to enjoying the day with you and yours!

PRODUCT FORMS AND OFFERING

- Products focused on growing your success! For 2023, this is our strongest line-up of breeders and genetics ever: Benchmark to unique varieties from mega breeders to niche specialists. Selected, trialed and fine-tuned to a concise list of top performing varieties.
- Programs to match your operation. Premium inputs for every size grower; mega to modest, filling all market niches. Product forms, multiples, and volume programs designed to help you grow your business and profits. No forced pot or tag requirements!
- Ready to deliver for you at every stage, every season. Rooted Young Plants, BumpUps, and "Retail-Ready" Finished products to fit your every niche and purpose.
 - Young Plants are available through elite brokerage companies (see page 112).
 - Unique BumpUp products fit the niche for quick turns on long cycle crops, and are available through the broker network.
 - Finished products are marketed and supported by our in-house Plantpeddler sales team. Please inquire for additional information.
- Find current Young Plant availabilities at www.plantpeddler.com, on major broker websites, and by direct email. Contact us if you wish to receive availability and other timely emails.

DoubleUp™ 25X Rooted Cuttings

- Primary production system for Begonia, Dipladenia, Geranium and Sunpatiens.
- Bonded media for secure parcel carrier shipping, and ease of planting.
- Mix & match! 25 multiple allows you the widest variety assortment in the industry.
- Low multiple, larger size allows for more flexibility in use and container sizes.
- 26/78 Tray. Plug size: 1 5/8" W X 1 3/4" D. Third sheet (26): 3 1/2" X 20"
 - Sold in multiples of 25. 300 per case. 2400 per cart.

EcoLiner™ 50X Rooted Cuttings

- Core configuration for Annuals, Accents, and Garden Mums.
- Optimized culture for perfect crops. Reduces risk versus URCs. Competitively priced!
- Full (100) or half (50) flats allow you to optimize cost and variety mix.
- Efficient in shipping. Low cost, money-saving freight programs.
- 51/102 Tray. Plug size: 1 3/16" W X 1 5/8" D. Half sheet (51): 5 1/2" X 21"
 - Sold in multiples of 50. 300 or 400 per case. 4000 per cart.

MultiLiner™ 50X Rooted Cuttings

- Assembled using the ISO Sticking Robots for enhanced quality and performance.
- MultiLiners are rooted in tri-lobe trays allowing uniform rooting of each component.
- Multiple stick liners from leading breeders; vigor matched, trialed and proven.
- Fast in planting, allows quick turns, colorful sales, and season-long performance.
- Simplify your combos and increase profits with these formulated mixes.
- Tri-Lobe 50: 1 3/4" W X 1 3/4" D. Sheet 11" X 21"
 - Sold in multiples of 50. 300 per case. 1600 per cart.

SuperLiner™ 50X

- Four key Accents offered in deep 50 trays, ready to jump when transplanted.
- Fully established hefty liners, perfect for combos and individual containers.
- Traditional 50 Tray: 2" W X 2 3/4" D. Sheet: 11" X 21"
 - Sold in multiples of 50. 100 per case. 1200 per cart.

BumpUps™

- Specialized multi-plant liners for quick turns on long cycle finished crops.
- Available in Begonias and Dipladenia. We stick 4ppp and guarantee 3.
 - Begonias are the perfect solution for quick crop baskets and tubs.
 - Dipladenia are bulked-up with double pinch. Ensures full finish.
- Grown on a prebooked basis only. Order deadline is Sept 15, 2022.
 - Sold in multiples of 20. 100 Minimum. 400/cart. Grower Truck only.

Garden Mum & Aster EcoLiner™ 50X

- Historic crop at Plantpeddler with four decades of production experience.
- Top Mum genetics from Syngenta, Gediflora and Dummen Orange.
- Proven Asters from Syngenta. Combine Mums and Asters from one source.
- Vegetative, node stacked, fully rooted, with 18-hour long days (HID).
- Mix it up! Flexible low 50 multiple per variety. More colors, more flower forms.
- 51/102 Tray. Plug size: 1 3/16" W X 1 5/8" D. Half sheet (51): 5 1/2" X 21"
 - Sold in multiples of 50. 400 per case. 4000 per cart.

Poinsettia Oasis 13 Wedge

- Genetics from every global breeding program. Match your culture & customer.
- Propagated in proven 13 strip Oasis Poinsettia system for rooted cuttings.
- Custom grown for every order. We match your wants, wishes and needs.
- Poinsettia Variety Day 2022 is December 1st. Over 150 varieties in trial.
- Proven and elite Poinsettia rooting program. Inquire for more information.
 - Sold in multiples of 50. 100 or 400 per case. 3200 per cart.

Finished Products

- Plantpeddler is your full-service supplier of high-quality blooming and bedding plants.
- With over 40 years of experience, we pride ourselves on growing premium products.
- Available in all seasonal cycles and supported by our in-house sales department.
- Complete retail ready line for Spring, Summer, Fall and Christmas Holiday Season.
- Quality custom commercial landscape production with extensive list of references.
- Current availability and order forms available upon request or at www.plantpeddler.com.

Plantpeddler Tag Program

- All tags are inventoried in-house, pulled to match orders, and ship with your plants.
- The tag minimum and multiple for Begonias, Dipladenia, Geranium and Sunpatiens is 25; for all other rooted liner products the multiple is 50 per variety.
- No mandatory breeder tags (or pots) required. Tag multiple and no tag options available.
- Pre-season bulk tag shipment option. Flexibility to match your needs!

BEGONIA LEADERSHIP

At Plantpeddler, we have a single quest: To bring you the world's best in Begonias.

Throughout The States, growers trust Plantpeddler as their Begonia source. Begonias are not a sideline. At Plantpeddler, they are our focus. Our knowledge runs deep with unmatched production protocols, resulting in unrivaled quality. Top breeders, more species, more varieties, clean, quality rooted liners, with proven performance. Add our Begonias to your product mix and watch your sales grow. Begonia success.

WHEN YOU THINK BEGONIAS... THINK PLANTPEDDLER!

GERANIUMS **DU**

syngenta flowers

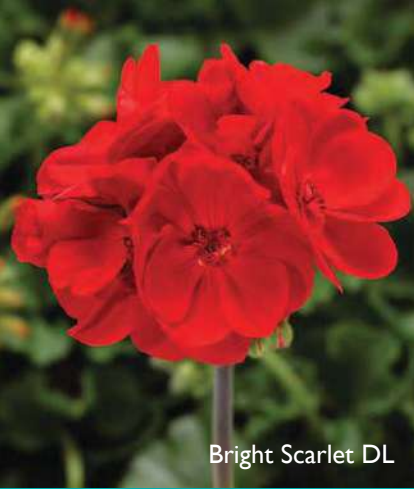

Leadership driven by a commitment to advance the genus, in breeding, elite stock, and production, describes Syngenta's position in this important class. Advancements to ensure grower success and consumer garden performance are the cornerstones of this effort. New varieties, from traditional and interspecific breeding, deliver on these goals and raise the bar. We proudly feature the wide spectrum of Syngenta Geraniums!

INTERSPECIFIC GERANIUMS, CALLIOPE MEDIUM & CASCADE

- Game changing breeding breakthrough in Geraniums. Started a revolution!
- Best in class. Intense all-season color, exceptional branching, edema tolerance.
- In production grow at a lower (more acidic) pH versus Zonal Geraniums.
- Calliope Medium feature controlled habit superior to Zonal Geraniums.
 - New colors for '23: Bright Rose and Salmon; Rose Mega Splash improved.
 - Several varieties are now specified as dark leaf (DL) selections.
- Calliope Cascade Violet is the start of a new series with semi-trailing habit.
 - Must try variety. Take your first step in replacing Ivy Geraniums.

INTERSPECIFIC GERANIUMS, CALDERA

- We are big fans of this series. Heat-beating color for pots and landscapes.
- Easy to grow with dark green foliage over intense, single cascade-type flowers.
- Strong self-branching habit. Self-cleaning umbels. Make great baskets.
- New Lavender Glow is a unique bicolor. Salmon is a favorite at Plantpeddler.

Caldera Pink

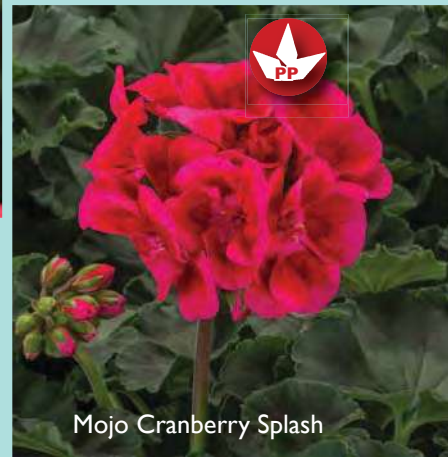

Caldera Red

Caldera Salmon

Caldera Lavender Glow

Mojo Cranberry Splash

INTERSPECIFIC GERANIUMS, MOJO

- Zonal look with the background performance bloodlines of Calliope.
- A bold combination of dark foliage with brilliant flower colors.
- New Magenta joins the series. Dark Red times one week later.

SPRING ANNUALS EL

AGERATUM, BUMBLE

- Bee and butterfly magnets. Vigorous growth and require no deadheading.
- Vibrant flower power with excellent Summer garden performance.

Ageratum Bumble Blue

ANGELONIA

- Few annuals have height and flower power, with heat and drought tolerance.
- We are big believers in Danziger's "Big" series. Bred in Israel in the heat.
 - Seven distinctive colors, including new Dark Pink.
- The Alta series were added based on stellar PP Trial Garden performance.
- Span the seasons with color from Spring to Fall. Lots of big, brilliant color.

NEW

Calendula Cheers Tangerine

NEW

Calendula Cheers Yellow

CALENDULA

- This might be the single most under utilized early Spring flowering genus.
- For '23, we are offering two excellent new selections from Danziger.

CELOSIA

- Kelos are day neutral, requiring no short-day treatment. Easy to grow.
- The Fire series are plume types with superior performance to seed Celosia.
- Create interest in your mix with the crested flower Kelos Lunar selections.

Celosia Kelos Fire Purple

Celosia Kelos Fire Red

Celosia Kelos Fire Orange

CLEOME

- Easy option to add height to combinations and landscapes. Seed sterile, too.
- Well behaved vigor, with rich magenta color in every season.

Cleome Clio Magenta

Celosia Kelos Lunar Magenta

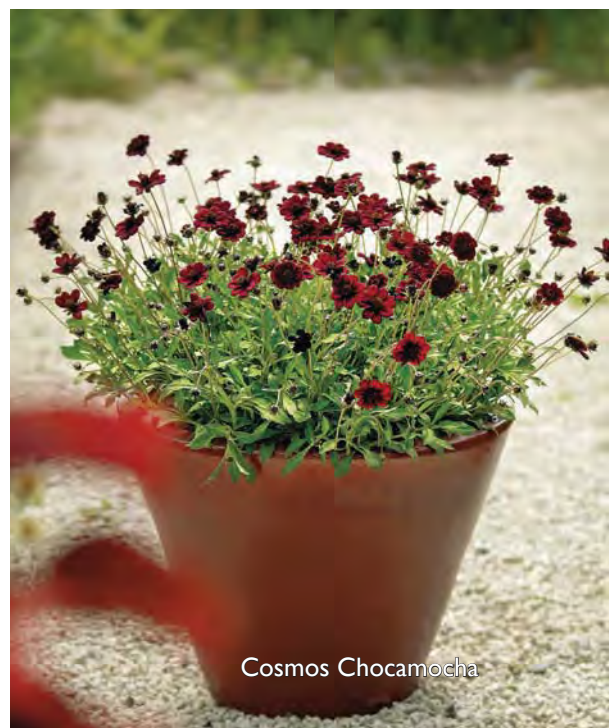

Celosia Kelos Lunar Yellow

COSMOS

- Gardening chocoholics must have Chocamocha. Surprisingly fun variety.
- Tightly mounded with flowers borne on erect, wiry, red-brown stems. Trendy!

CALIBRACHOA

- Evolutionary breeding defines Colibri; trouble-free in growing, simple success.
 - o Three new selections and the Yellow Canary has been improved.
 - o More compact than Noa, day neutral and require little to no PGRs.
 - o For stunning colors, be sure to grow the Eyeconic selections.
- Basket perfection describes the Lia series. Large flowers, tight internodes.
- Noa series is proven and reliable with well-matched vigor and timing.
 - o Early to color. Traditional favorites for PP's own finished production.

Evolvulus Blue Daze

Heliotrope Marino Blue

Heliotrope Scentropia Dark Blue

Gaura Belleza Dark Pink

Gaura Belleza White

Gaura Gauriella Bicolor

Gomphrena Pinball Purple

EUPHORBIA

- As a filler for combo pots, this is the Baby's Breath of Annuals.
- Hip Hop is one of the top selling annuals. Great garden performance.

Felicia Forever Blue

ADD BLUES: EVOLVULUS, FELICIA & HELIOTROPE

- Blue is the most obscure color in flowers, use these to bring blue to life.
- Evolvulus Beach Bum Blue will blow your mind with its vivid blooms.
- Go for a vogue look with Forever Blue. Mounded with elongated flower stalks.
- Heliotrope adds fragrance and foliage texture to combos. Grow warm and dry.

GAURA

- Great companion plant and a native pollinator which thrives in heat.
- Adds height with continuous flowering. Excellent branching for full plants.

GOMPHRENA

- Unique globe flowers with semi-mounded habit, these are combo perfect.
- Add worry-free interest all season. Excellent heat and drought tolerance.

PETUNIA

Amore Fiesta

Amore Fluttering Heart

Amore Heart & Soul

Amore King of Hearts

Amore Queen of Hearts

Red Carpet Hippy Chick Violet

Littletonia Bicolor Illusion

Littletonia Pink Frills

Littletonia Purple Blue

Littletonia Shiraz

- Definite winner; Amore have mounding habit with stunning high-contrast blooms.
 - o Very stable heart shapes formed by contrasting stripes. Large flower size.
 - o Queen of Hearts and Fluttering Hearts are "must grow" varieties.
- Hippy Chick has moved into a new series, Red Carpet. It's a party in a plant!
- Littletonia are small in flower size, huge in flower power: Quick to finish.
 - o Strong roots, full vigor, abundant small flowers, and very versatile.

Cascadias Vibrant Pink

PETCHOA, SUPERCAL

by Sakata

- These are outstanding with their greenhouse and landscape performance.
- Recent improvements have this series rocking. Growers are taking notice.
 - Premiums have medium vigor and semi-mounding habit, large flowers.
 - SuperCal varieties are high vigor, mounded, with medium flower size.
- Grower friendly, fewer pH issues, stellar garden performance versus Calibrachoa.
- Added this year is Premium Sunset Orange, #1 in the 2021 Variety Day at PP.

ORDERING INFORMATION

Contact Us

Phone: (800) 827-1654 • Fax: (563) 547-5792 • info@plantpeddler.com • www.plantpeddler.com

Sales and Ordering

Plantpeddler products are supported through the following market channels:

Young Plants: All products are represented by leading brokerage companies. If you do not have a supporting broker, please contact us to get your order booked and directed to a trusted broker.

We proudly work through the following brokers – Ball Hort. Co., BFG, Carlin Sales, Eason Horticultural Resources Inc., Express Seed Co., Griffin, Henry F. Mitchell Co., Leo Berbee Bulb Co., McHutchison, and Vaughan's Horticulture.

Finished: Order direct from Plantpeddler and several Finished Plant brokers. Our sales force is ready to serve your needs.

Booked Orders: Our seasonal capacity has limits. We anticipate selling out that capacity at all peak seasons. If you are interested in growing and retailing our products, we highly recommend that you book as early as possible. Lead times vary with product line, genetics, and form to be produced. Please inquire for crop specific lead time information and Early Order Discount (EOD) programs.

Availability: When your needs change during the seasons, we are here to help you fulfill them. Current availabilities are published on our website daily, and you can also request being added to the email availability group (Young Plant and/or Finished).

Volume Discount: Annual volume discounts are available for all products. For Young Plants, discounts apply on all combined product lines shipped October 1, 2022 to September 31, 2023. Finished products have annual and seasonal volume discounts based on historical volume, and/or pre-booked orders. If a higher volume level is reached in season, it will not be retroactively applied to orders already shipped.

EOD: Book your orders early and save even more!! For Spring Annual orders, receive an early order discount of 3% on all orders received by Plantpeddler on/or before October 31, 2022 (firm date). There is a separate EOD for Mums and Poinsettias of March 8, 2023. These discounts are above and beyond your "Volume Discount".

Quotes: Looking to grow your volume with us? Please request a quote. This request can be through your broker or Plantpeddler Customer Service.

Pricing: All prices are subject to change without notice. Delivery charges are applied based on product type and service provider. Fuel surcharges may be applied as deemed necessary to offset volatility in energy costs.

Minimum Orders: The order minimum for Young Plant products is one case of rooted cuttings. Minimums vary for BumpUp and Finished products based on product and region. Orders under minimum are subject to surcharges.

Tag Program: Tags are available for all varieties we carry, inventoried at Plantpeddler, pulled to match your order, and shipped with your plants. The default tag ratio for all orders is a "one to one" basis unless clearly specified with the order. Please note "no tags" or a "tag to liner ratio" if applicable. You can place a bulk seasonal tag order and receive a single pre-season shipment. The tag minimum and multiple for Begonias, Dipladenia, Geraniums, and Impatiens Interspecific Hybrids is 25. For all other liner products, the tag minimum and multiple is 50 per variety. Please note, tag requirements vary by breeders.

Cold Weather Shipping: Plantpeddler has no control over weather and shipping perils which may delay or damage products. We are committed to making every effort to ensure lowest cost, but secure delivery. During cold shipping periods winter boxing and heat packs (at a minimal cost) will be employed to protect shipments. If the low temperature at the receiving facility is sub-freezing, we will use priority/overnight delivery options. Call us at (800) 827-1654 if you wish for us to delay shipping or use a lower cost (slower) method. Please note you will assume the risk for frozen and/or overgrown product.

Culture & Care: Your success matters! Please contact us for growing culture and post-harvest care information. Our team is here to help. If we do not have the answers, we will find them for you. Also, visit our website at www.plantpeddler.com.

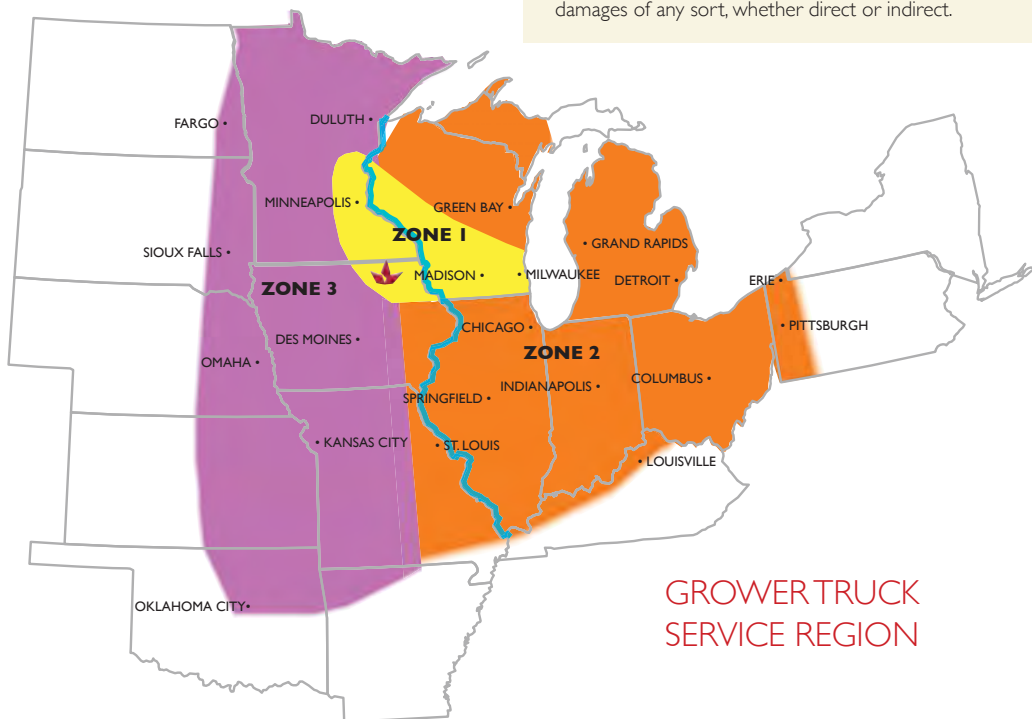

Breeders Rights and Trademarks: A majority of the genetics within this catalog are patented and no propagation is allowed. Additionally, series and variety names are trademarked and copyrighted; use of these names without breeder permission is strictly prohibited. Please inquire with any questions.

Claims: Complete customer satisfaction is our goal. Please call (800) 827-1654 immediately if you experience any problems or are unhappy with our product. As your grower, we will do everything possible to ensure your satisfaction. Please report all claims within 48 hours of receipt. All preliminary claims will close after 30 days.

Cancellations & Order Changes: Cancellations for booked orders are not accepted for BumpUp products. They will be accepted within 8 weeks for Begonia RC products, and 6 weeks for all other RC products in advance of the scheduled ship date. Orders cancelled inside of these lead times will be billed to the broker of record, but we will accommodate the brokers effort to resell. Subject to availability, we will make every effort to fulfill order additions up to one week prior to the scheduled ship date.

Visible & Hidden Damages: Please closely inspect all boxes BEFORE you sign for them. Note all damages on the shipping documents. Most freight companies will honor only those claims listed on the original shipping documents. For Grower Truck deliveries, please note on the BOL when signing for the delivery.

Warranty: Plantpeddler, Inc. disclaims all expressed or implied warranties, including, but not limited to, merchantability, title, non-infringement, and/or fitness or a particular purpose. We do not warrant that plants will be free of disease, bacteria, virus, genetic defect, mutations, syndromes, insects, or other pests. We make no warranty for crop yield, crop quality, or merchantability of the crop. Plantpeddler, Inc.'s liability, under any theory of liability, arising out of or in connection with the sale of plants or otherwise will not exceed the purchase price of the plants. Plantpeddler, Inc. will not be liable for incidental or consequential damages of any sort, whether direct or indirect.

TRANSPORT AND LOGISTICS

Our professional team at Plantpeddler is committed to delivering secure, expedient, and efficient freight solutions with on time delivery to your door. Shipping options include:

Customer Pick-Up: Available Wednesday through Friday. Please notify us at least 48 hours in advance of anticipated will call.

Young Plant Grower Truck Program: To better serve our growers, for 2023, more routes throughout the Midwest plus coverage East to Pennsylvania and South into Oklahoma. This method ensures the highest quality product reaches your greenhouse. We are willing to expand territory. Contact us regarding Grower Truck coverage to your site.

The Young Plant shipping zones for 2023:

- Zone 1 – Core Region ships on a weekly basis all Young Plant seasons.
- Zone 2 – East Region ships even weeks 4 through 16, and for Mums & Poinsettias.
- Zone 3 – West Region ships odd weeks 5 through 15, and for Mums & Poinsettias.

Please use the even and odd weeks for your zone to ensure Grower Truck service. Increased truck service occurs during peak weeks. We will contact the broker and/or the grower to help adjust delivery dates to ensure truck service. Unless specified on order, products are cart delivered. If you do not have the ability to handle carts, please notify us. Winter box rates will apply for all boxed product on Grower Truck. Routes are subject to minimum volume requirements per region. Pooled truck delivery is available for small volume orders.

Finished Grower Truck Program: In addition to our Young Plant Grower Truck program, we also deliver all in-season Finished product on Plantpeddler controlled trucking. We bring color right to you on established weekly routes. Please contact us for the route schedule and delivery minimums for your area.

Dedicated Truck Program: By the load, deliveries can be made outside of the standard Grower Truck area with minimums that vary with distance, typically ten carts. These orders can be assorted product lines. We can also help coordinate

pooled truck options, grouping orders in your region. For these options, call for a customized quote.

National Young Plant Shipping Program: To serve customers outside of the Grower Truck area, we have developed a system with trusted carriers. It is our commitment to improve our process and ability to perform for all growers. Options include:

- **Parcel Shipments:** We have negotiated aggressive discounts with FedEx. They serve as our primary parcel shipper for Young Plant products. Cold weather priority shipments are dropped directly at the FedEx terminals. We work closely with them to ensure dependable and timely shipments to your door. Based on grower request for service effectiveness to your location, UPS is an option. If UPS is desired, please specify on orders. UPS ships at grower's risk.
- **Air Freight:** Air is a safe and often cost-effective option. Expanded service for 2023, we have negotiated favorable rates with Southwest, Alaska Air, and others. Departure from Minneapolis, via commercial air freight services to most major airports. Proper handling instructions, airport destination with pick-up, phone on arrival, or re-delivery instructions are the responsibility of the broker/customer. Please inquire for more information.
- **Grower's Choice:** We are always open to your input! If there is a freight method that works best for your unique situation, we are committed to explore and investigate how we can meet your wishes. Please feel free to discuss your freight situation with your broker or directly with us. Your success matters to us!

General Information: All orders are FOB Plantpeddler, Cresco, IA. Except for Grower Truck, shipping methods are at the customer's risk.
