WELCOME FRIENDS

We proudly share our 2024 catalog featuring elite genetics, in all major classes of Vegetative Annuals, advanced by leading breeders from around the world. Tested, trialed, proven to perform. A concise program focused on delivering premium varieties to ensure your success and profitability.

Thank you for what you do! As greenhouse growers and retailers, we bring the beauty of flowers to the world around us. All at Plantpeddler thank-you for trusting us to support you with live plant products. It is our honor and goal to grow with you in mutual success. The world around us is evolving, with challenges to our businesses never more complex, but together we bring nature's colors to the lives we impact.

Building upon a four-decade foundation of growth, we continue to advance our production protocols to cultivate higher quality products. Incorporating new and emerging technologies, biological enhancements, and advanced chemistry, we strive to provide energy-packed, healthy plants ready to perform in your greenhouse, at retail; ensuring consumer success. We promise to be relentless in the pursuit of plant perfection.

Seems like the right moment to reflect on this past year: Our August Variety Day 2022 was a record setter both in varieties in the trial and attendees. Same is true for Poinsettia Variety Day. Both events have established themselves as industry "must attend" events; thank you to all who attended, and please join us this year. With a coordinated team effort, we launched our new website, which is rich with images and content. In April, Rachel and I received an unexpected honor; selected the Iowa State University Outstanding Horticulture Alumni of the Year. And on a bittersweet note, at Cultivate 2023, I will end my term serving as your AmericanHort Board Director. It has been an honor to serve our industry in this capacity.

This year we are hosting a new special event on Thursday, August 3rd (the day before Variety Day) called "Educate the Educators". This event is an Ag Educators Greenhouse Workshop Day, focused on helping them build, manage, grow, teach, and fundraise in educational greenhouses. If you are or know Ag Educators, we encourage attendance. In advance, I wish to thank all the industry leaders who have volunteered to help teach, especially Dr. Brian Krug of Syngenta Tech.

Meanwhile back at the greenhouse, I am proud of how the team at Plantpeddler put together an amazing year. No matter the season or the crops, never a challenge they haven't risen up to conquer. From the administrative and sales teams, through production, to logistics getting our products to your door; I could not be prouder of them all. They are eager to excel again in the year ahead.

As we navigate into 2024, we welcome you to our most extensive yet concise collection to date. We have added over 170 new varieties. This catalog is a powerhouse of genetic opportunity with no mandatory tag or container requirements. We thank-you for your business and trust in our company. It is our focus and goal to deliver elite genetics in the highest quality Young and Finished Plants for all seasons. As our recent ads reflect, "Quality Rooted Liners Equals Grower Success."

Thanks Mike

About The Cover Artist—Sticks

In the relentless quest to bring inspiring art, of every media, to the cover of our catalog, this year we feature the amazing wood folk art of Sticks. The inspiration for this cover comes from the entry vestibule of Iowa State University Horticulture Hall, where Sticks captured the history of our great department. With the team at Sticks, we were able to collaborate on a concept that tells the evolving story of Cresco Greenhouse and Plantpeddler from our beginnings. The original art piece for this catalog is the top of a bar height table. Sticks crafts beautiful, functional pieces which facilitate conversations and inspire creativity!

Who is Sticks? Starting as an idea for carved Nativity sets made by Sarah Grant in 1992, they have grown into a flourishing company with a production facility in Des Moines, Iowa. Sticks, Inc. is now owned and operated by Sarah's daughter, Rachel Eubank, and their products are sold online and by retailers across the United States. The Sticks team is full of passionate artists and creatives – some have been with them for 20+ years!

From the smallest wood plaques, to large dining tables, and art installations, each is hand-drawn with an original Sticks design. The linework is then wood-burned for that signature Sticks look. From there, designs are brought to life with paint, and then head to the finishing department for final touches before they make it into the hands of their cherished customers. Each piece is crafted with the intention of telling a unique story and creating lasting memories.

You can find Sticks' home accessories, sculptures and furniture at www.sticks.com. Search "Sticks, Inc." to follow them on Facebook and Instagram. There is a retail locator on their website to find and support your local Sticks retailer!

PLANTPEDDLER

Variety Day 2023

“Testing the Best in the Midwest”

Friday, August 4, 2023

9:00 am to 4:00 pm

You are invited! Mark your calendar and make plans to attend Variety Day 2023. The event keeps getting bigger and better, with a full day planned for horticulture professionals in production, distribution, wholesale, and retail. Come together with the industry to learn and connect.

- Complimentary day of genetics, breeders, seminars, tours, food, and networking.
- Expanded gardens with nearly 1500 varieties of vegetative annuals from a global array of breeders.
- Outstanding educational presentations and idea exchange.
- Great place to take photos and gather info for your social media marketing.
- This is a day for you to grow your business.

Make plans to attend. For travel guide and event information, contact us on the web at www.plantpeddler.com, email info@plantpeddler.com or call (800) 827-1654. To ensure we are ready for you, please RSVP. If arriving the night before, please join us for “The Feast at the Farm” special event that evening.

Follow-Up Events: Poinsettia Variety Day 2023 is Thursday, November 30. Variety Day 2024 is Friday, August 2. Please make plans to attend.

We are looking forward to enjoying the day with you and yours!

PRODUCT FORMS AND OFFERING

- Continual focus on your growing success! For 2024, you will discover our most robust line-up of breeders and genetics ever. Working closely with our partner breeders and production farms, we have selected, trialed, and fine-tuned the collection to a concise list of top performing varieties. Our goal is top performance and success in every variety you select. Benchmark to unique varieties from mega breeders to niche specialists.
- Programs to match your operation. Premium inputs to support growers of every size to help you fulfill profitably in your market niche. Product forms, multiples, and volume programs designed to help you grow your business and profits. No forced pot or tag requirements!
- Ready to deliver for you at every stage, every season. Rooted Young Plants, BumpUps, and "Retail-Ready" Finished products to fit your every want and need.
 - Young Plants are available through elite brokerage companies (see page 112).
 - Unique BumpUp products fit the niche for quick turns on long cycle crops and are available through the broker network.
 - Finished products are marketed and supported by our in-house Plantpeddler sales team. Please inquire for additional information.
- Find current Young Plant availabilities at www.plantpeddler.com, on major broker websites, and by direct email. Contact us if you wish to receive availability and other timely emails.

DoubleUp™ 25X Rooted Cuttings

- Primary production system for Begonia, Dipladenia, and Geranium.
- Bonded media for secure parcel carrier shipping, and ease of planting.
- Mix & match! 25 multiple allows you the widest variety assortment in the industry.
- Low multiple, larger size allows for more flexibility in use and container sizes.
- 26/78 Tray. Plug size: 1 5/8" W X 1 3/4" D. Third sheet (26): 3 1/2" X 20"
 - Sold in multiples of 25. 300 per case. 2400 per cart.

EcoLiner™ 50X Rooted Cuttings

- Core configuration for Annuals, Accents, and Garden Mums.
- Enhanced propagation protocols to help you create perfect crops.
- Reduces risk versus URCs. Competitively priced! Efficient in shipping.
- Full (100) or half (50) flats allow you to optimize cost and variety mix.
- 51/102 Tray. Plug size: 1 3/16" W X 1 5/8" D. Half sheet (51): 5 1/2" X 21"
 - Sold in multiples of 50. 600 per case. 4000 per cart.

MultiLiner™ 50X Rooted Cuttings

- Assembled using the ISO Sticking Robots for enhanced quality and performance.
- MultiLiners are rooted in tri-lobe trays allowing uniform rooting of each component.
- Multiple stick liners from leading breeders; vigor matched, trialed and proven.
- Fast in planting, allows quick turns, colorful sales, and season-long performance.
- Simplify your combos and increase profits with these formulated mixes.
- Tri-Lobe 50: 1 3/4" W X 1 3/4" D. Sheet 11" X 21"
 - Sold in multiples of 50. 300 per case. 1600 per cart.

SuperLiner™ 50X

- Large format Accents offered in deep 50 trays, bulked up and transplant ready.
- Fully established hefty liners, perfect for combos and individual containers.
- Traditional 50 Tray: 2" W X 2 3/4" D. Sheet: 11" X 21"
 - Sold in multiples of 50. 200 per case. 1200 per cart.

BumpUps™

- Specialized multi-plant liners for quick turns on long cycle finished crops.
- Available in Begonias and Dipladenia. Guaranteed 3 plants per 4.5" mega-liner.
 - Begonias are the perfect solution for quick crop baskets and tubs.
 - Dipladenia are bulked-up with double pinch. Ensures full finish.
- Grown on a prebooked basis only. Order deadline is Sept 15, 2023.
 - Sold in multiples of 20. 100 Minimum. 400/cart. Grower Truck only.

Garden Mum & Aster EcoLiner™ 50X

- Historic crop at Plantpeddler with four decades of production experience.
- Top Mum genetics from Syngenta, Gediflora and Dummen Orange.
- Proven Asters from Syngenta. Combine Mums and Asters from one source.
- Vegetative, node stacked, fully rooted, with 18-hour long days (LED).
- Mix it up! Flexible low 50 multiple per variety. More colors, more flower forms.
- 51/102 Tray. Plug size: 1 3/16" W X 1 5/8" D. Half sheet (51): 5 1/2" X 21"
 - Sold in multiples of 50. 600 per case. 4000 per cart.

Poinsettia Oasis 13 Wedge

- Plantpeddler is the proven leader in premium Rooted Poinsettias.
- Genetics from every global breeding program. Match your culture & customer.
- Propagated in proven 13 strip Oasis Poinsettia system for rooted cuttings.
- We match your wants, wishes and needs. Custom grown to your order.
- Poinsettia Variety Day 2023 is November 30th. Over 150 varieties in trial.
 - Sold in multiples of 50. 100 or 400 per case. 3200 per cart.

Finished Products

- Plantpeddler is your full-service supplier of high-quality blooming and bedding plants.
- With over 40 years of experience, we pride ourselves on growing premium products.
- Available in all seasonal cycles and supported by our in-house sales department.
- Complete retail ready line for Spring, Summer/Fall, and Christmas Holiday Season.
- Quality custom commercial landscape production with extensive list of references.
- Current availability and order forms available upon request or at www.plantpeddler.com.

Plantpeddler Tag Program

- All tags are inventoried in-house, pulled to match orders, and ship with your plants.
- The tag minimum and multiple for Begonias, Dipladenia, and Geranium is 25; for all other rooted liner products the multiple is 50 per variety.
- No mandatory breeder tags (or pots) required. Tag multiple and no tag options available.
- Pre-season bulk tag shipment option. Flexibility to match your needs!

BEGONIA LEADERSHIP

At Plantpeddler, we have a single quest: To bring you the world's best in Begonias.

Growers across the country trust Plantpeddler as their Begonia source. Why? Because at Plantpeddler, Begonias are not a sideline, they are our focus. With over four decades experience, we have built Begonia relationships at all levels, developed deep knowledge and protocols, and intensive production methods which help ensure your Begonia success. Clean, quality rooted liners with proven performance.

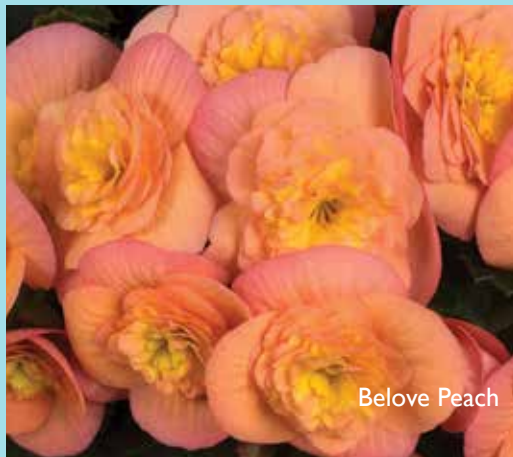

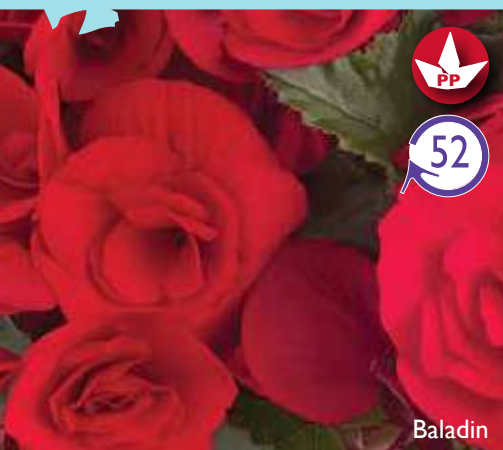

WHEN YOU THINK BEGONIAS... THINK PLANTPEDDLER!

GERANIUMS

syngenta *flowers*

Leadership driven by a commitment to advance the genus in breeding, elite stock, and production, describes Syngenta's position in this important class. Advancements to ensure grower success and consumer garden performance are the cornerstones of this effort. New varieties, from traditional and interspecific breeding, deliver on these goals and raise the bar. We proudly feature the wide spectrum of Syngenta Geraniums!

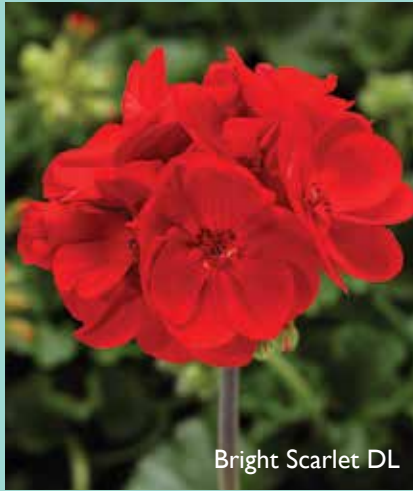

GERANIUMS

20

Bright Rose

Bright Scarlet DL

Crimson Flame

INTERSPECIFIC GERANIUMS, CALLIOPE MEDIUM & CASCADE

- Syngenta continues to evolve and improve this breakthrough breeding.
- Best in class. Intense all-season color; exceptional branching, edema tolerance.
- In production tolerant to lower (more acidic) pH versus Zonal Geraniums.
- Calliope Medium feature controlled habit superior to Zonal Geraniums.
 - New for '24 is White Splash, striking bicolor in tones of rose.
 - Several varieties are now specified as dark leaf (DL) selections.
 - Calliope Cascade Violet is a must try variety. Semi-trailing habit.

SPRING ANNUALS EL

AGERATUM, BUMBLE

- Bee and butterfly magnets. Vigorous growth and require no deadheading.
- Vibrant flower power with excellent Summer garden performance.

Ageratum Bumble Blue

ANGELONIA

- Few annuals have height and flower power, with heat and drought tolerance.
- We are big believers in Danziger's "Big" series. Bred in the heat of Israel.
 - Two new rich colors for 2024, Big Cherry and Big Grape.
- Span the seasons with color from Spring to Fall. Deliver big, brilliant color.

CALENDULA

- This might be the single most underutilized early Spring flowering genus.
- Fun daisies for your kick-off color program in bowls, baskets, and pots.

Calendula Cheers Tangerine

CELOSIA

- Kelos are day neutral, requiring no short-day treatment. Easy to grow.
- The Fire series are plume types with superior performance to seed Celosia.

Calendula Cheers Yellow

CLEOME

- Perfect when seeking height for combinations and landscapes.
- Well-behaved vigor; with rich magenta color in every season. Seed sterile too.

Celosia Kelos Fire Orange

Celosia Kelos Fire Pink

Celosia Kelos Fire Purple

Celosia Kelos Fire Red

COSMOS

- Every year, more growers discover this unique variety. Excellent in combos.
- Tightly mounded with flowers borne on erect, wiry, red-brown stems. Trendy!

CRASPEDIA

- Amusing Golf Beauty is back, improved variety and growing culture at PP.
- Expect better root development, improved branching, and faster to bloom.

CALIBRACHOA, MINIFAMOUS

by **selecta** one

- The Neo series are uniform, semi-trailing, with medium vigor; early flowering.
 - Feature large blooms in a wide range of colors.
 - Three new selections broaden the range of classic and novel colors.
- The Uno series represents early, compact-mounded, lower vigor varieties.
 - Includes core colors in solid, bicolors and stars. Matched timing.
 - New Pink Radiance transitions rose-pink to yellow as flowers mature.

CALIBRACHOA

- State-of-the-art breeding defines Colibri; easy in growing, simple success.
 - More compact than Lia and Noa, day neutral, require little to no PGRs.
- For stunning colors, be sure to grow the Eyeconic selections.
- Select the Lia and Noa series to create basket and large pot perfection.
 - Early to color. Traditional favorites for PP's own finished production.

EUPHORBIA

- As a filler for combo pots, this is the Baby's Breath of Annuals. Versatile color.
- Hip Hop is one of the overall top selling annuals. Great garden performance.

SHADE OF BLUES & PURPLES

- Blue is the most obscure color in flowers, use these to bring blue to life.
- Evolvulus is a perfect mid-blue. Blue Daze is our pick; unique foliage and habit.
- Change up texture with Forever Blue. Mounded with elongated flower stalks.
- Gomphrena's globe flowers come with excellent heat and drought tolerance.
- Heliotrope adds fragrance and foliage texture to combos. Grow warm and dry.

GAURA

- Great companion plant and a native pollinator which thrives in heat.
- Adds height with continuous flowering. Excellent branching for full plants.

PETUNIA

by  **DANZIGER**
Dedicated Rooting Partner

- New Amazonas Plum Cockatoo has unique ruffled flowers, and is early blooming.
- Definite winner; Amore have mounding habit with stunning high-contrast blooms.
 - Very stable heart shapes formed by contrasting stripes. Large flower size.
 - King of Hearts has been improved. Be sure to grow Queen of Hearts, too.
- Hippy Chick features unique deeply lobed bicolor flowers. It's a party in a plant!

Sales and Ordering

Plantpeddler products are supported through the following market channels:

Young Plants: All products are represented by leading brokerage companies throughout all regions of North America. If you do not have a supporting broker, please contact us to get your order booked and directed to a trusted broker.

We proudly work through the following brokers – Ball Hort. Co., BFG, Carlin Sales, Eason Horticultural Resources Inc., Express Seed Co., Griffin, Henry F. Mitchell Co., Leo Berbee Bulb Co., McHutchison, and Vaughan's Horticulture.

Finished: Order direct from Plantpeddler and several Finished Plant brokers. Our sales force is ready to serve your needs. Please contact us.

Booked Orders: Our seasonal capacity has limits. We anticipate selling out that capacity at all peak seasons. If you are interested in growing and retailing our products, we highly recommend that you book as early as possible. Lead times vary with product line, genetics, and form to be produced. Please inquire for crop specific lead time information and Early Order Discount (EOD) programs.

Availability: When your needs change during the seasons, we are here to help you fulfill them. Current availabilities are published on our website daily, and you can also request being added to the email availability group (Young Plant and/or Finished). Note: At once orders are subject to availability, and nearest subs may be required to fulfill the order.

Volume Discount: Annual volume discounts are available for all products. For Young Plants, discounts are earned based on prior year volume of all combined product lines shipped October 1 to September 30. Volume level can be recalculated if a higher volume level is reached in the current season. New volume level will not be retroactively applied to orders already shipped.

EOD: Book your orders early and save! For Spring Annual orders, receive an early order discount of 3% on all orders received by Plantpeddler on/or before October 31, 2023 (firm date). There is a separate EOD for Mums and Poinsettias of March 8, 2024. These discounts are above and beyond your "Volume Discount".

Quotes: Looking to grow your volume with us? Please request a quote. Direct this request through your preferred broker, and we will prepare a custom quote.

Pricing: All prices are subject to change without notice. Delivery charges are applied based on product type and service provider. Fuel surcharges may be applied as deemed necessary to offset volatility in energy costs.

Minimum Orders: The order minimum for Young Plant products is one case of rooted cuttings. Minimums vary for BumpUp and Finished products based on product and region. Orders under minimum are subject to surcharges.

Tag Program: Tags are available for all varieties we carry, inventoried at Plantpeddler, pulled to match your order, and shipped with your plants. The default tag ratio for all orders is a "one to one" basis unless clearly specified with the order. Please note "no tags" or a "tag to liner ratio" if applicable. You can place a bulk seasonal tag order and receive a single pre-season shipment. The tag minimum and multiple for Begonias, Dipladenia, and Geraniums is 25. For all other liner products, the tag minimum and multiple is 50 per variety. We do not provide tags for custom grown varieties. A 20% restocking fee may be applied to cancelled and/or returned tags.

Cold Weather Shipping: Plantpeddler has no control over weather and shipping perils which may delay or damage products. We are committed to making every effort to ensure lowest cost, but secure delivery. During cold shipping periods winter boxing and heat packs (at a minimal cost) will be employed to protect shipments. If the low temperature at the receiving facility is sub-freezing, we will use priority/overnight delivery options. Call us at (800) 827-1654 if you wish to delay shipping or use a lower cost (slower) method. Please note you will assume the risk for frozen and/or overgrown product.

Culture & Care: Your success matters! Please contact us for growing culture and post-harvest care information. Our team is here to help. If we do not have the answers, we will find them for you. Also, visit our website at www.plantpeddler.com.

Breeders Rights and Trademarks: A majority of the genetics within this catalog are patented and no propagation is allowed. Additionally, series and variety names are trademarked and copyrighted; use of these names without breeder permission is strictly prohibited. Please inquire with any questions.

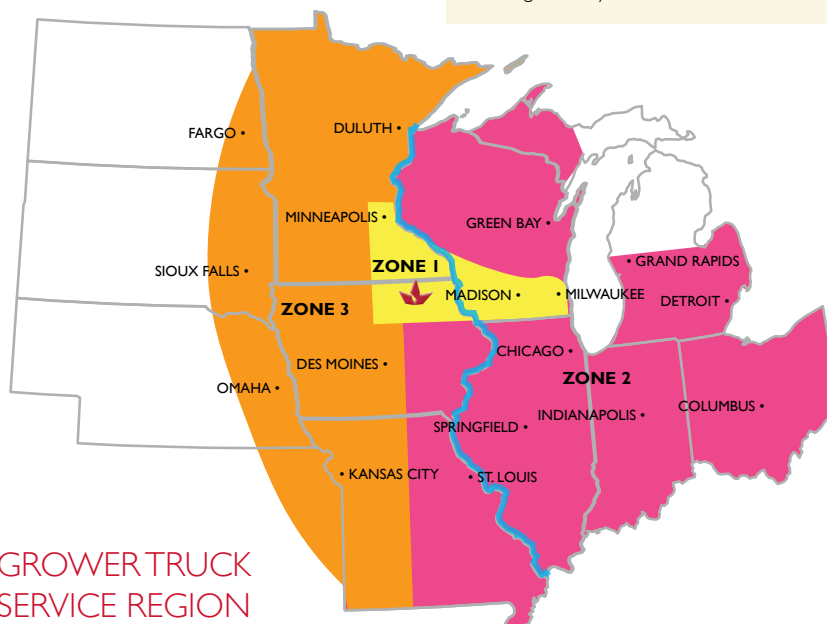

Claims: Complete customer satisfaction is our goal. Please call (800) 827-1654 immediately if you experience any problems or are unhappy with our product. As your grower, we will do everything possible to ensure your satisfaction. Please report all claims within 48 hours of receipt. All preliminary claims will close after 30 days.

To verify a claim, it must be accompanied by photos. If liner related, please include a second image visibly showing the information on the label adhered to the tray.

Cancellations & Order Changes: Cancellations for booked orders of all RC products are not accepted within 8 weeks in advance of the scheduled ship week. As BumpUp products are custom grown to order, no cancellations are accepted. Orders cancelled inside of these lead times will be billed to the broker of record, but we will accommodate the broker's effort to resell. Subject to availability, we will make every effort to fulfill order additions up to one week prior to the scheduled ship week.

Visible & Hidden Damages: Please closely inspect all boxes BEFORE you sign for them. Note all damages on the shipping documents. Most freight companies will honor only those claims listed on the original shipping documents. For GrowerTruck deliveries, please note on the BOL when signing for the delivery.

Warranty: Plantpeddler, Inc. disclaims all expressed or implied warranties, including, but not limited to, merchantability, title, non-infringement, and/or fitness for a particular purpose. We do not warrant that plants will be free of disease, bacteria, virus, genetic defect, mutations, syndromes, insects, or other pests. We make no warranty for crop yield, crop quality, or merchantability of the crop. Plantpeddler, Inc.'s liability, under any theory of liability, arising out of or in connection with the sale of plants or otherwise will not exceed the purchase price of the plants. Plantpeddler, Inc. will not be liable for incidental or consequential damages of any sort, whether direct or indirect.

TRANSPORT AND LOGISTICS

Our professional team at Plantpeddler is committed to delivering secure, expedient, and efficient freight solutions with on time delivery to your door. Shipping options include:

Customer Pick-Up: Available weekly on Thursday and Friday, 8:30 AM to 5:00 PM. Please call to schedule your pickup, or you will be contacted at least 48 hours in advance to set day and time. Orders requiring boxing will be billed at standard packing charge rates.

Young Plant Grower Truck Program: To better serve our growers, for 2024, more routes throughout the Midwest plus coverage East to Pennsylvania and South into Oklahoma. This method ensures the highest quality product reaches your greenhouse. We are willing to expand territory. Contact us regarding Grower Truck coverage to your site.

The Young Plant Shipping Zones for 2024:

Zone 1 – Core Region ships on a weekly basis all Young Plant seasons.

New 2024: 50% discount from standard grower truck shipping.

Zone 2 – East Region ships even weeks 4 through 16, and for Mums & Poinsettias.

Zone 3 – West Region ships odd weeks 5 through 15, and for Mums & Poinsettias.

Please use the even and odd weeks for your zone to ensure Grower Truck service. Increased truck service occurs during peak weeks. We will contact the broker and/or the grower to help adjust delivery dates to ensure truck service. Routes are subject to minimum volume requirements per region. Pooled truck delivery is available for small volume orders.

Unless specified on order, products are cart delivered. If you do not have the ability to handle carts, please notify us. Orders requiring boxing will be billed at standard packing charge rates.

Finished Grower Truck Program: In addition to our Young Plant Grower Truck program, we also deliver all in-season Finished Plant Products on Plantpeddler controlled trucking. We bring color right to you on established weekly routes. Please contact us for the route schedule for your area.

Dedicated Truck Program: By the load, deliveries can be made outside of the standard Grower Truck area with minimums that vary with distance, typically ten carts. These orders can be assorted product lines. We can also help coordinate pooled truck options, grouping orders in your region. For these options, call for a customized quote.

National Young Plant Shipping Program: To serve customers outside of the Grower Truck area, we have developed a system with trusted carriers. It is our commitment to improve our process and ability to perform for all growers. Options include:

- **Parcel Shipments:** We have negotiated aggressive discounts with FedEx. They serve as our primary parcel shipper for Young Plant products. Cold weather priority shipments are dropped directly at the FedEx terminals. We work closely with them to ensure dependable and timely shipments to your door.
- **Air Freight:** Air is a safe and often cost-effective option. Expanded service for 2024, we have negotiated favorable rates with Southwest, Alaska Air, and others. Departure from Minneapolis, via commercial air freight services to most major airports. Proper handling instructions, airport destination with pick-up, phone on arrival, or re-delivery instructions are the responsibility of the broker/customer. Please inquire for more information.
- **Grower's Choice:** We are always open to your input! If there is a freight method that works best for your unique situation, we are committed to explore and investigate how we can meet your wishes. Please feel free to discuss your freight situation with your broker or directly with us. Your success matters to us!

General Information: All orders are FOB Plantpeddler, Cresco, IA. Except for Grower Truck, shipping methods are at the customer's risk.
